

To whom it may concern,

Subject: Planning End of Life of XP13 Series

Torex Semiconductor Ltd. has considered the product integration and we may be able to steady and timely supply our products for our customers' demand while learning from a present market trend and etc.

A decrease in demand of the XP13 series has become remarkable. As the result, we have decided to plan EOL of the series.

1. EOL planned package: XP13 series/SOP-8 package
2. EOL plan period: From December 1, 2008 to November 30, 2011
(Discontinuation schedule of the series will be announced in written form after November 30, 2011.)

Please ask Torex sales person or representatives for the details.

Last of all, we would appreciate very much for your great understanding for the above-mentioned circumstances and for your patronage to these products for many years.

Best regards,

Koji Shibamiya
General Director,
General Sales Headquarters
Torex Semiconductor Ltd.

[List of XP13 Series]
